Dear Teacher,

We are pleased to confirm that on recommendation of our Information Office in Madrid, a group of twenty-five students of your school is invited to take part at the Euroscola programme of the **European Parliament in Strasbourg on June 4, 2009.**

EUROSCOLA is a European Parliament program that gives young people the opportunity to discuss their expectations and ideas on the progress of European integration and to share this day with young people from other European Union countries.

Please find attached the necessary information to help you prepare appropriately for this day:

- the schedule for the day
- the principles to be observed when preparing for the day
- a location map.

We would like to draw your attention to the inaugural session. One of your students will be called on to act as spokesman and will have one minute to introduce your school in one of the official languages of the European Union different from his or her mother tongue. The discussions in plenary, working parties and committees will be conducted mainly in English and French.

Your group will receive a travel subsidy for 25 students (age 14-16) and 3 teachers. The exact amount will be communicated if you confirm your participation by returning urgently the attached list duly completed. The programme authorizes one accompanying adult for every 10 pupils; depending on the attendance of the other countries, additional students may attend without any contribution from the European Parliament.

Yours sincerely,

Jean-Jacques Fritz
